The President's Council of Advisors on Science and Technology (PCAST) issued their annual report in October 2015. Focusing on aging Americans with hearing loss, the report makes recommendations on how to open the market for new innovation in hearing technologies and make hearing aids and ALDs more accessible to people with hearing loss. Ken Cluskey will discuss the report and its implications for consumers and hearing healthcare providers. Please join us for this informative presentation, and find out how you can help advocate for changes in hearing healthcare delivery!

### Fond Farewells and Enormous Thanks

Founding member and current VP Alicia Fernandez is resigning from the Steering Committee. Besides recently starting a full-time job that takes up most of her Saturdays, Alicia would also like to devote more time to her family. We are so grateful for all her years of dedication to this chapter.

Georgia Fleischer is stepping down as Advocacy Chair. With her passion and perseverance, she has kept the Advocacy committee active for several years and has been successful in getting venues throughout Los Angeles to provide open captioning at live performances.

Many thanks to both Alicia and Georgia for their service to HLAA-LA and to the hearing loss community!

### SC Election - February 27 Chapter Meeting

With Alicia leaving, we have a vacant spot on the Steering Committee. An election will be held at the February chapter meeting to fill her seat. Please note: you must be a member of HLAA National to serve on the committee. If you have any questions, email Pat Widman [pkwidman@sbcglobal.net](mailto:pkwidman@sbcglobal.net).
